

Naresh Bhadke

TECHNICAL LEAD · PAYMENTS & TRANSIT SYSTEMS

EXPERIENCE

Technical Lead

Apr 2025 — Present

e-Zest – An Accion Labs Company, Pune

- Leading design and development of an **Open-Loop Transit Fare Platform** (SPX Technologies) — cloud-native, account-based ticketing enabling contactless Visa & Mastercard fare payments.
- Architecting real-time fare processing, payment authorization, settlement and reconciliation with multi-tenant deployments across transit agencies.
- Driving engineering standards with Java 21, Spring Boot 4.0, Spring Cloud, AWS SQS/SNS, OAuth2, CQRS and ISO 8583.
- Embedded **DevSecOps quality gates** into CI/CD — SonarQube, Snyk and Checkmarx One code-security scanning on every release.

Lead Technology

Jul 2021 — Mar 2025

Synechron Technologies, Pune

- Led Mastercard & Visa programme integrations; delivered **Mastercard T-1 settlement** and spearheaded **Visa Click to Pay**.
- Designed CQRS microservices for **Emirates NBD** (Bawaba Corporate) with SonarQube, Snyk and Checkmarx One enforced as CI quality gates.
- Delivered **BANKNET (DGFT, Japan)** — ISO 8583 messaging over custom TCP sockets with Spring Batch settlement.
- Implemented event-driven architectures and secure API integrations across AWS, Azure and OpenShift.

Sr. Software Developer

Apr 2019 — Jul 2021

DeepTek Medical Imaging, Pune

- Engineered the **Genki/Augmento** AI-driven teleradiology platform — multi-cloud (GCP, AWS, Azure, OCI) with DICOM imaging.
- Led OAuth2-secured client onboarding and cross-system API integrations, improving performance and scalability.

Associate Java Developer

Apr 2017 — Nov 2018

Softenger India, Pune

- Led development of **TalentOrb HRMS** on a microservices architecture, improving performance and scalability.
- Built a Lead Management System and Linux-deployed payroll application using Java 8, Spring Boot, Azure.

Software Developer

Jul 2016 — Dec 2016

Winsnit Technologies, Pune

- Developed backend services and REST APIs for **OnField** using Java 8, Spring Boot and Jersey JAX-RS.

ABOUT ME

Technical Lead with 9+ years designing enterprise payment, settlement and fare-collection platforms across FinTech, Banking, Healthcare and Transit. Deep hands-on strength in Java 21, Spring Boot, microservices and event-driven architecture, with a track record of mentoring engineers and championing AI-assisted engineering.

EDUCATION

- B.E. Computer Science & Engineering**
SRTMUN, Nanded · 2011–2015
- Diploma in Computer Engineering**
MSBTE · 2008–2011

KEY PROJECTS

Open-Loop Transit Fare Platform — TRANSIT PAYMENTS

Account-based ticketing platform that lets riders tap any contactless Visa or Mastercard to pay fares — real-time authorization, fare capping, settlement and reconciliation across multi-tenant transit agencies.

Java 21 · Spring Boot 4.0 · AWS SQS/SNS · CQRS · ISO 8583 · MongoDB · SonarQube · Snyk · Checkmarx One

Bawaba Corporate Banking Gateway — BANKING · EMIRATES NBD

Event-driven CQRS microservices powering Emirates NBD's corporate banking channel — noqodi wallet integration, payment-reversal workflows and delivery-status APIs, with security scanning enforced as CI quality gates.

Java 11 · Spring Cloud · Oracle 21 · Azure · OpenShift · OAuth2 · SonarQube · Snyk · Checkmarx One

BANKNET Interbank Payment Switch — CARD NETWORKS · JAPAN

Japan's national interbank card network integration — high-throughput ISO 8583 message processing over a custom TCP socket layer, with Spring Batch driving end-of-day settlement.

ISO 8583 · TCP Sockets · Spring Batch · React JS · PostgreSQL

Augmento — AI-Powered Teleradiology — HEALTHCARE AI

Diagnostic imaging platform pairing radiologists with AI triage — DICOM ingestion pipelines, multi-cloud storage and OAuth2-secured hospital-system integrations.

Spring Boot · DCM4CHE · TensorFlow · GCP · AWS · OCI

TalentOrb Workforce Platform — ENTERPRISE HR

End-to-end HR management suite rebuilt from a monolith into microservices — recruitment, payroll and employee lifecycle with measurable gains in performance and scalability.

Java 8 · Spring Boot · Spring Cloud · Azure · PostgreSQL · Jenkins

TECHNICAL SKILLS

Programming	Java 21, Java 8, Node.js, SQL, JavaScript, Python
Backend	Spring Boot, Spring Cloud, Spring Security, Spring Batch, Hibernate/JPA, REST, GraphQL
Architecture	Microservices, Event-Driven, DDD, CQRS, Saga Pattern, Circuit Breaker, 12-Factor App, SOLID Principles, Distributed Systems
Messaging	Apache Kafka, RabbitMQ, AWS SQS/SNS
Cloud & Platform	AWS, Azure, GCP, OCI, Docker, Kubernetes, OpenShift, Helm
DevOps	Jenkins, GitHub Actions, SonarQube, Snyk, Checkmarx One, ELK, Prometheus, Grafana, OpenTelemetry
Security	OAuth2, OIDC, JWT, API Security, OWASP
Databases	Oracle, PostgreSQL, MySQL, SQL Server, MongoDB, Redis
AI Engineering	AI-Assisted Development, GenAI Integration, LLM Applications, RAG, GitHub Copilot, Amazon Q
Leadership	Agile Scrum, TDD, Technical Governance, Mentoring, Solution Design, Stakeholder Management

CERTIFICATIONS

AWS Cloud Practitioner Essentials

AWS Skill Builder

Docker Certification

Certification

OCI 2023 Foundations Associate

Oracle
